3.45 pm

Refreshments & Networking

4.15 pm

Close

About the Event

This high profile European conference will bring together experts from business, the public sector, academia and European Commission. The objective of the conference is to promote the environment (physical, administrative, social and economic) in which innovative practice in e-government, broadband and wireless technologies can be transferred throughout Europe to improve services for citizens.

The conference will profile award-winning models of best practice including: urban and rural planning, integrated aid management, e-government and wireless applications. Business innovators will provide delegates with an insight into revolutionary technological innovations for the delivery of public services in the future.

Who Should Attend?

Entry to the Conference is free and delegates from the following fields are invited:

- > Regional Government Policy Makers
- > Local Government Officers/ Policy Makers
- > Economic Development Practitioners
- > Public Sector ICT Professionals
- > Private Sector Technology Companies and Entrepreneurs
- > EC Officials
- > Researchers
- > Business Support Organisations

Demonstration Innovation Zone

Delegates will be able to meet with a number of organisations who will demonstrate innovative applications for the delivery of e-government and wireless services. **Exhibitors include:**

- > BT
- > Belfast City Council
- > Cora Systems
- > e-hub
- > ESRI Ireland
- > NODE
- > Tascomi
